Line Coverage

Snapshot groups included in this report

Line 9 | Layout mll-3953 | Zone 1 8 groups | 7 priority | 0 scheduled

Immediate Training Actions

Top priority operators from the bottleneck recommendation summary

Priority	Line	Skill	Operator	Current Eff.	Capacity	Action
P1	9	Elastic Make SN	Priyanka Kumari	50%	1600	Train Operator to 70%
P2	9	Open Cuff/Rib Attach OL	Pinky Das	59%	1686.86	Train Operator to 70% + Add 2 Workstations
P3	9	Heatseal HS	-	83%	1992	Add 1 Workstation
P3	9	Rise OL	-	81%	2083.64	Add 2 Workstations

+ 3 more priority row(s) on line detail pages.

Production Training Capacity Report

Bottleneck line snapshot and training prioritization
File: sapna mll-3953 line9 shift101

layout_id = mll-3953

line = 9

zone = 1

groups = 8

C line eff=63.10% | P line eff=87.36%

current capacity = 1600 pcs/shift

projected line capacity = 2215.38 pcs/shift

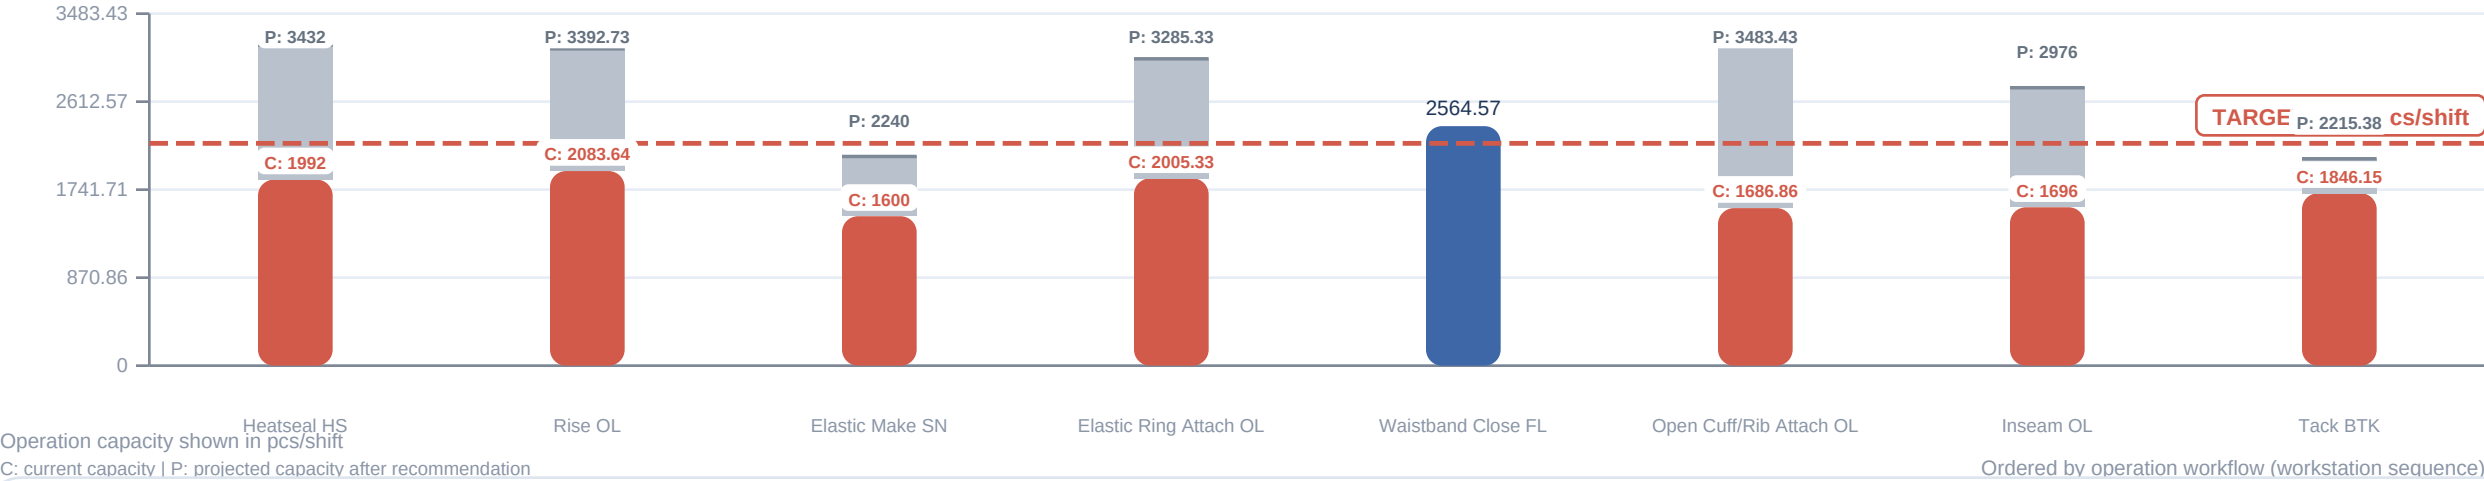

target = 2200 pcs/shift

Line 9 Grouped skill-capacity chart

Context: layout_id=mll-3953 | zone=1 | Current bottleneck: Elastic Make SN

Target: 2200 pcs/shift | Projected bottleneck: Tack BTK

Current line efficiency: 63.10% | Projected line efficiency: 87.36%

Priority Training Operators

P1 / P2 / P3 bottleneck rows | Capacity values: pcs/shift

Priority	WS#	Operator ID	Operator	Operation	Skill	Eff%	SMV	Current	Projected	Recommendation
P1	5	9238	Priyanka Kumari	Elastic Measure Cut & Joint	Elastic Make SN	50%	0.15	1600	2240	Train to 70%
P2	10	15800	Pinky Das	Leg Rib Attach	Open Cuff/Rib Attach OL	59%	0.35	1686.86	3483.43	Train to 70% + Add 2 WS
P3	12	-	-	Inseam	Inseam OL	76%	0.45	1696	2976	Add 2 WS
P3	15	24402	Dipika Khalkho	Leg End Tack	Tack BTK	48%	0.26	1846.15	2215.38	Train to 68%

Production Training Capacity Report

Embedded layout details and operation capacity
File: sapna mll-3953 line9 shift101

Line 9 layout details

Layout mll-3953 | Zone 1 | Capacity unit: pcs/shift | Current versus projected

Calculation details

100% line capacity = (480 / line GMV) x staffed operators = (480 / 2.65) x 14 = 2535.85 pcs/shift
Current line capacity = minimum operation capacity = 1600 pcs/shift
Projected line capacity = minimum projected operation capacity = 2215.38 pcs/shift
Current line efficiency = current capacity / 100% capacity x 100 = 63.10%
Projected line efficiency = projected capacity / 100% capacity x 100 = 87.36%
Target capacity = 2200 pcs/shift

WS#	Operation	Skill	SMV	Current pcs/shift	Projected pcs/shift	Status
1	Back Neck Heat Seal	Heatseal HS	0.20	1992	3432	Improves
3	Front & Back Rise Attach	Rise OL	0.44	2083.64	3392.73	Improves
5	Elastic Measure Cut & Joint	Elastic Make SN	0.15	1600	2240	Improves
6	Elastic Ring Attach On Waist	Elastic Ring Attach OL	0.45	2005.33	3285.33	Improves
8	Waist Folding & Sewing	Waistband Close FL	0.35	2564.57	2564.57	No change
10	Leg Rib Attach	Open Cuff/Rib Attach OL	0.35	1686.86	3483.43	Improves
12	Inseam	Inseam OL	0.45	1696	2976	Improves
14	Leg End Tack	Tack BTK	0.26	1846.15	2215.38	Improves
